

ART 240 - Assignments

Aaron Wong

Nevada State College

Simple Design #1

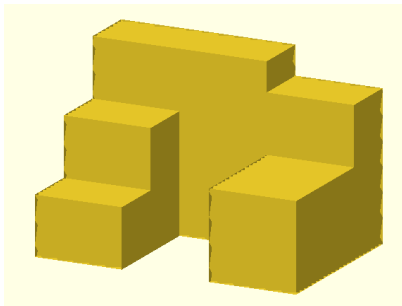

Create the following object:

Submit a F3D file. Be sure that your timeline is as clean as possible.

Shape #2: Side-By-Side Steps

Create an OpenSCAD model for shape #2 (side-by-side steps). Be sure that your dimensions match the physical dimensions of the object.

Submit a F3D file. Be sure that your timeline is as clean as possible.

Final Project #5: Make a Thing

Your final project is to make me a thing that demonstrates the ideas that we have discussed in this class. I really don't care what it is as long as it is appropriate to the course.

Your project will have two components.

- Create a basic design sketch of the thing you are making.
- Write a 2-3 paragraph description of your thing.
- Create an 3D model of your thing in Fusion 360.
